FOR BETTER

COLLABORATION

« Our employees were affected by noise since we decided to move into an open-plan office. We needed a solution that could reduce distracting noise without cutting them from their colleagues. Taking in hand TILDE® headphones was very easy and natural. Five of our departments currently use the product. » Toulouse Metropolis

68% of participants declare TILDE® helps deal with interruptions at work.

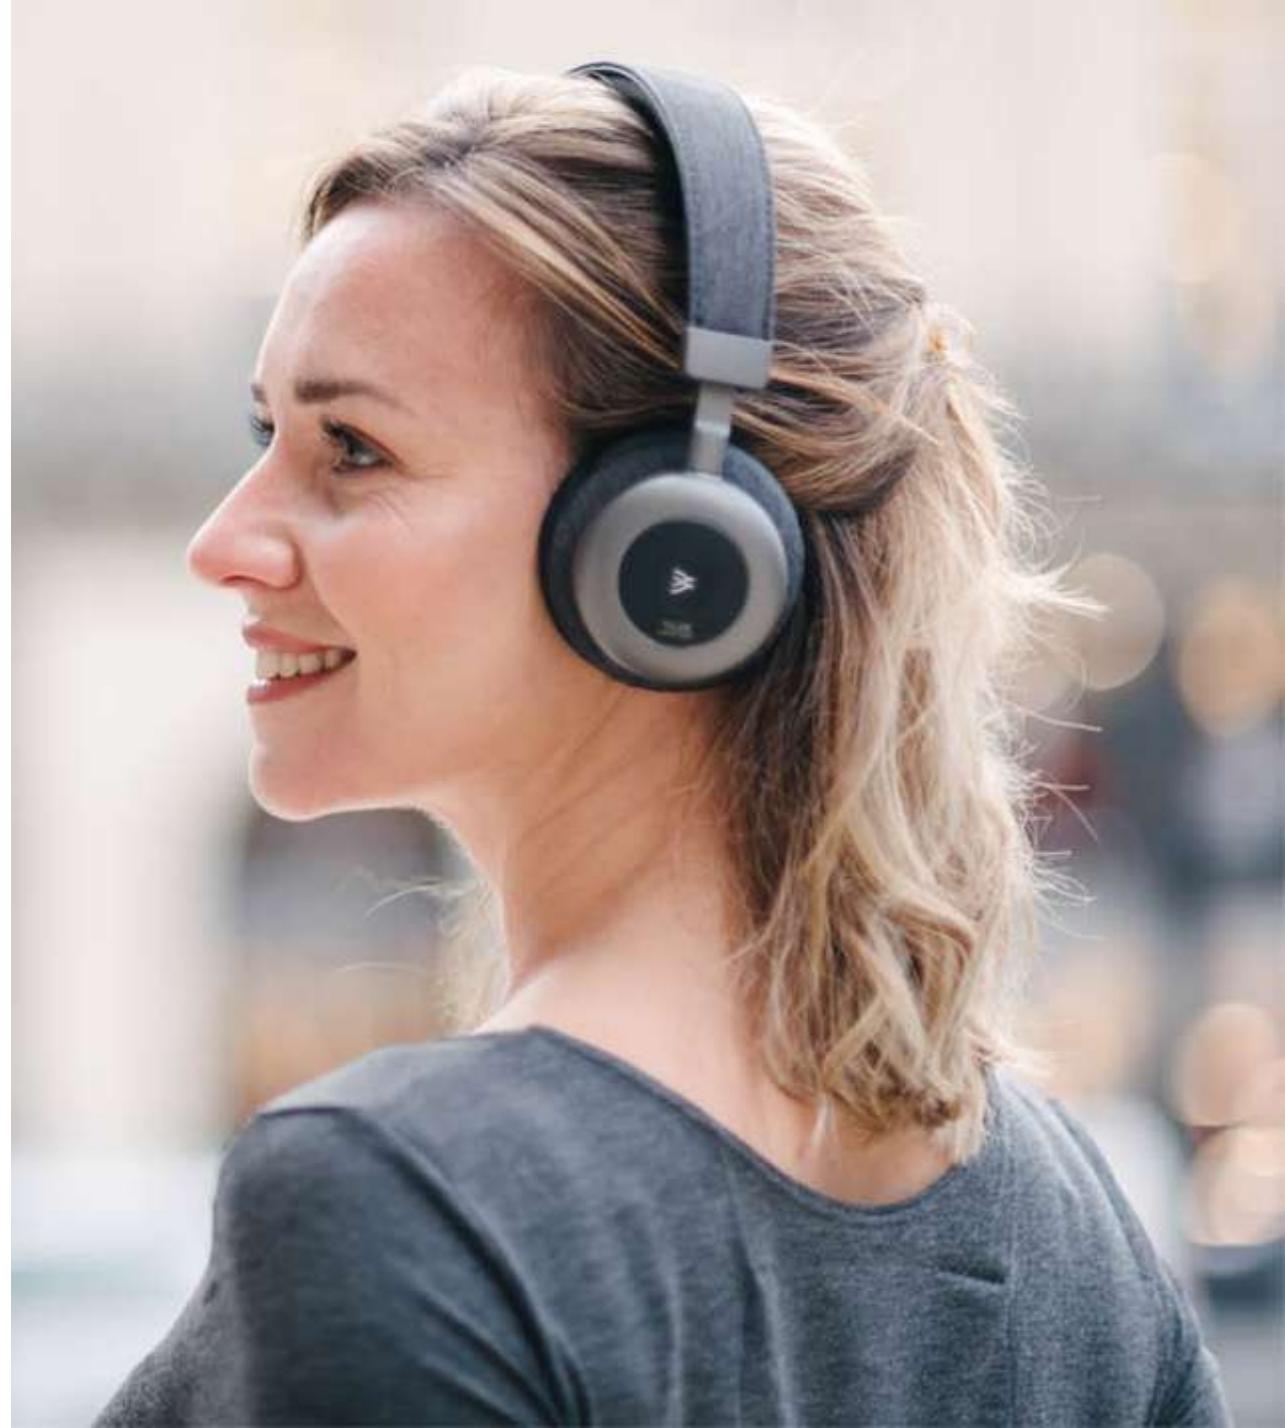

AND IMPROVED

CONCENTRATION

« I am totally satisfied with the headphones! **TILDE®** provides maximum comfort: good microphones, different sized ear tips, pick up or hang up the phone... and an efficient noise reduction that helps me concentrate even when the office is loud. » RTE

100% of participants say it is easier to stay focused at work with TILDE®.
